“ Adrian and I met in '73, our interests in aviation, photography, and railroads/model RR were the catalyst. Throughout the years we spent numerous times visiting train yards and airports. Our infamous roadtrip in 1977 in a rented Aspen station wagon around the Central States visiting airport after airport taking photos was one of the most memorable. So many fun times, so much sharing over the many years. I'm am most grateful for our friendship, and most terribly saddened by this outcome. RiP my friend, and condolences and wishes of peace to Judy, Victoria, and all of his family and friends.

“ I've worked with Adrian at United for many years, which included several great business trips together. I retired in early 2024 and we continued to keep in touch with each other. He shared his cancer diagnosis with me when he found out and kept me informed on how his treatments were going, both via phone & texts. He said that he considered part of his "support team" and I was honored. We were both optimistic that everything would be alright. I was sooo bummed to hear that things took a turn after Thanksgiving and that he eventually passed. My condolences to his wife Judy, his daughter Victoria, his grandkids and the rest of his family. Adrian was truly a great guy and a good friend. I am going to miss him and our conversations about aviation, music from the 70's and just Life in general. I will always remember the good times we had. Rest in peace buddy 🙏🙏.. Rog
