“ Our deepest sympathies on the loss of Chester to the world. We associated with him for many years in Morris, IL - as we and he enjoyed the classic car vehicles of the car and truck collectors in our area. His tan truck is a beauty! This is how we discovered that we too were former Garfield Ridge residents. Archer Ave. and 55th St. is where we all hung out He will be missed very much - we last saw him on Christmas Eve with a smile and a hand shake and a Merry Christmas. May God take care of him for ever.

“ We're so sorry for your loss. Chester was a joyful part of our lives and a true friend. You could not find a person with a bigger heart or as giving as Chester. We loved sitting on our front porch with Chester downing cold drinks in the summertime listening to his stories about Antique Cars and his obvious love for his family. We miss him already. Paul & Mar

“ Uncle Chester...what can I say other than you were the best Uncle any kid could ever ask for. You lived your adult life as a kid at heart, which made you the greatest uncle ever to a little kid like me. What was not to love...you loved cars and trucks, trains, guns (BB type), movies, hide and seek, board games, billiards...everything boys love. Grandma's basement was our playground...you had the pool table, you turned the entire basement into a huge train city every year, we played hide and seek, GI-Joe, we worked in grandpa's workshop...you were always there playing alongside me. You made my childhood fun, and I thank you for that. You're in God's hands now, may you have an infinite number of cars and trucks to build up there...we love and miss you Uncle.

“ Chester, you were my Guardian Angel and I was yours on this Earth. Thank you for loving, cherishing and protecting me, and allowing me to love, cherish and protect you. Your qualities of patience, love, honor, service, kindness, courage, humor, tenderness, faith, generosity, humility, creativity and loyalty were bestowed on your friends and family for which we are all grateful. During the last two years of your life you created over 80 original trucks designed and built with commercially available models, and recycled materials used in unique ways - to perfect scale and detail. You had names for each one, but just as we began documenting your work your voice became silent. You are a Heavenly Angel now, without the constraints of a human body. You will continue doing great works of kindness and service in your New World. We spoke with so much joy only a few days ago. The quiet without your voice is deafening. You lived your life in the fastest track you could - having been a First Responder in Tinley Park in your 60's, and a Tornado Storm Chaser simultaneously. You were the most amazing combination of dare devil and strength and stability. You were a man's man, and a man who appreciated and understood females as well. You were my best friend - like a best girlfriend only so much more. You worked in banking, and for the EPA. Your interest in architecture was expressed in the many scale model train layouts you created - growing each year so that they nearly filled the whole basement. When life gave you frightening experiences, you rose above them with determination - and found a way to heal like the phoenix rising above the ashes. This gave you compassion and grace. I will seek the rest of my life to keep your memory alive, and to pass forward what I learned from you. I love you.
