“ Ray was a lot of things, but he was always a husband, father, grandpa, sailor, fireman, and best of all a real friend. Everything he did had a purpose and he did the best he could.. Barb and I enjoyed our friendship and we will add him along with Jane to our prayer list.

“ God Speed good friend. One of the best fire officer that I had the honor of working with. When you pulled up to a good working fire Ray knew exactly what he wanted you to do. He didn't hesitate with a game plan. He knew his tool and men's capabilities and use them to get the job done. His number one concern was to get all the men under his command home safely. He was also great at the fire house with a story, joke or suggestion and assistance with the meals. Class guy who will never be forgotten. Terrence Michael Harty

“ To a great guy, friend, neighbor and fellow fire fighters over many years. Ray had a good sense of humor. Some one that would keep you laughing, and good stories. I was glad to know and be friends with him. As so many others that Ray came in touch with. Take care Ray, To you and your family may you rest in peace
