KS

“ I am very sad today knowing that my division teacher of four years at Taft High School from 1979-1983. has passed away. He was a great person and teacher. I remember him always sending me birthday cards even if they were late he never forgot to send the birthday cards. I still have those cards that he sent me after all these years. I remember how he would help me out if I needed help with a problem that I had. I was hoping one day to see him again when there was class reunion. I will truly miss Mr. Warren Link my great division teacher. My deepest sympathy to his family.

MC

I was very sorry to read about Mr. Link's passing in the Taft newsletter. He was my psychology teacher at Taft during my junior year in 1978. He always keep all of us interested in what he had to say and I'll always remember his kindness. Once back in the 80's I ran into Mr.Link at a Cub game. It made my night and after that I always looked for him at the school reunions. I just want to let his family know that he was special and I will always remember him. My sympathy to all of the people that he loved. He was a very special teacher to many of us.
